This document lists part numbers only — there are no prices in it.

We publish the complete range so you can check availability against your own BOM first. Send us whatever you need a quote for; we answer with stock and price line by line.

1 · Find your part numbers

Search this list, or use the Excel version for quick filtering. You can also send us a competitor part number and we will cross-reference it.

2 · Send us the list

Email the part numbers you need — no form, no minimum quantity. A photo or screenshot of your BOM works just as well.

3 · We confirm stock & price

Within 24 hours (Mon–Sat) you receive stock status, unit price and lead time for every line you asked about.

4 · Dispatch in 3 days

Stocked items ship within 3 working days. DHL / FedEx door-to-door, or your nominated forwarder.

Why buy from us

- **No MOQ** — one piece is a valid order
- **Stock and obsolete part sourcing** — including ALPS models discontinued by the factory
- **3-day dispatch** from stock, DHL / FedEx door-to-door
- **Cross-reference support** — send the competitor part number, we propose the ALPS equivalent
- **Mixed trial orders welcome** — 3 to 5 part numbers, 100–500 pcs each, is a normal first order

How to send an enquiry

Email sales@yanpart.com with subject line “**RFQ – [your company]**” and attach your list, or paste the part numbers directly into the email body. We reply within 24 hours.

Note on part numbers

All part numbers in this list are original ALPS Alpine ordering codes as published in the manufacturer catalogue. Packaging, plating and tolerance variants are indicated by the suffix — if you are unsure which suffix you need, send us the datasheet or describe the application and we will confirm before you order.

Cannot find the part number you need?

This list covers our regular stock range. We also source ALPS part numbers outside this list, including discontinued and end-of-life items. Send the number — or the competitor equivalent — and we will check availability.

Cross-reference service

Already using C&K, Bourns, Panasonic, Omron, Nidec, Teikoku or another switch / encoder / potentiometer brand? Send us the part number and the key specification (dimensions, operating force, life, rating) and we will propose the nearest ALPS equivalent with a comparison table.

Surface-mount and through-hole tactile switches, 2.5mm to 12mm, operating force from 0.8N to 4.9N, life up to 1,000,000 cycles.
